April 2018

Parents,

We are so excited to welcome spring here at Walnut Grove! The students will have an exciting spring break to start out our month, with all of the fun theme days we have planned. Please remember to pack a healthy nut-free lunch each day!

This month the Cubs will be learning all sorts of fun things about the world, starting out with world records. The projects throughout the month will all correspond with the earth, the ocean, and the continents. They will also be learning how to protect the earth with the three r's, reduce, reuse and recycle. To help keep our earth happy and to honor Earth Day, which is April 23rd.

The Lions will also be learning about Earth Day, as well as projects centered around spring, how people celebrate their birthdays, crops that are grown during this time, for example, corn. Lots of fun STEAM learning going on around Walnut Grove this month!

Walnut Grove will be participating in the Pleasanton Run for Education on, April 15th with PPIE. To sign up for the run or to donate please visit their website www.ppie.org. We hope they have another successful run which helps to support all Pleasanton schools.
