Sssss...The SNAKE Habitat

Did you get to check out the SNAKE Habitat that has been constructed in the Shark’s building? The kids did an amazing job not only creating the salt dough reptiles, but organizing all of the different snake species by habitat as well: water, desert, rain forest, and land regions. If you did not get the chance to see this fabulous creation check out the pictures of it on our Shutterfly Share Site. Great job sharks!

Memorial Day 2018

Memorial Day is a national day of remembrance for the people who died while serving in our country’s armed forces. The holiday is observed on the last Monday of May. This year it takes place on May 28, 2018. In national cemeteries, American Flags are placed on graves for the veteran who lies in passing beneath it. Please remember to give thanks to all of our country’s soldiers on this very special day.
